## SUBJECT INDEX - BOOK, THESES AND ARTICLES

Note: The more detailed an index gets, the less pricise it also gets for uniformity of indexing. Some of the books, which were indexed to a certain subject, I would not have indexed the same way at another time. Had someone else done it, some would have been indexed differently. Therefore it is a good idea to scan other than the obvious section or use a CDROM to find books having specific words in their titles. During the 1990s and later many theses were on esoteric subjects which I did not index.

Where only a title is given these books were published 2003-2011. See the Albabetical title listing.

There are many theses on use of abandoned rail lines. I indexed only a representative few. To find others check WorldCat

"abandoned" railroads, railway" Abandoned lines of a particular railroad are indexed with the railroad and not here

Theses and periodicals show author and publication or university. Book usually have only the title and description. See the alphabetical list for author, date, pages.

# ELECTRIC RAILWAYS AND ELECTRIFICATION INCLUDING CABLE RAILWAYS AND ELECTRIFICATION OF STEAM RAILROADS

#### **BOOKS**

This section of the Book Bibliography was largely prepared by Thomas Bullard and published in 1984 by Harold E. Cox in their "Street, Interurban and Rapid Transit Railways of the United States - a Selective Historical Bibliography" and then augmented from the Railway and

#### **ARTICLES**

Most listings are from Thomas Bullard's work which covers the period up to 1982-83. More recent listings are incomplete and from *Worth Reading* of the R.&L.H.S.'s *Railroad History* and therefore incomplete. An index of the National Railway. Additionally, publications of the Central Electric Railroaders Association and Electric Rail-way Historical Society publications should be consulted by contacting those organization for issues since 1983.

The Railroads Periodical Index can not be used for the following periodicals and years

Electric Railway Gazette, 1896

Electric Railway Review, 1906

Electric Traction Weekly, 1907, 8, & 9

Street Railway Gazette 1886-1891

Street Railway Review, 1892, 4, & 5

Locations of these periodicals are given in the *Railroad Periodicals Index*. Mr. Bullard indexed the major articles in these periodicals whereas for the other years *Railroad Periodicals Index* gives more thorough coverage, often including all news items

Railfan publications were indexed in the *Railroad Periodicals Index*: N.R.H.S. *Bulletin* up to 1986, R&LHS up to issue #151, *Trains Magazine* up to 1960, *Railroad Magazine* up to 1960.

Some of the periodicals shown are railfan groups. Locating copies except by contacting the publishing rail group or person will be difficult, particularly as many of them no longer exist. They may possibly be held at a large trolley museum.

The electric railway articles include a few obtained from county and state historical society publications. However, I believe that many of their publications were not researched to find electric railway material.

For space considerations titles some words have been eliminated such as *the*, and using abbreviations. Abbreviations include:

Arch - arcitecture

Aut - autumn

Bul - Bulletin,

El - electric;

Eng'r - engineer,

H.S. - historical society;

Hist. - history or historical,

Inst. - institute;

Inter - interurban

Mag - magazine;

NW - northwestern

Pro, proc - proceedings

Quart, Qt. - quarterly; RRER - Railroader

RRS - railroads

Soc - society;

Sou. - south or southern;

SP, Spr - Spring;

Sum - summer;

SW - southwestern

Tech. - technology;

Tr. - traction.

Win - winter

For locations of the various publications see the *Union List of Serials*. The location of state and local historical societies is given in a volume of museums in the U.S. Larger museums and historical societies should have copies.

NOTE: Many rapid transit articles are computer simulations or the equivalent and have little or no historical value. Rapid transit includes elevateds, subways, and since the 1980s light railways. These are partly included in MASS TRANSIT and SUBURBAN SERVICE.

Books having a blank area at the right have this information in the Alphabetical listing of books atr the beginning of Book #3, Bibliography. Authors, dates, pages are in the ALPHA listing.

Books, theses and articles dealing with specific companies or states are in RAILROADS.

Thomas R. Bullard's "Street, Interurban and Rapid Transit Railways of the United States" does not include Canada, and so the following list suffers from the lack of his thorough work. It does include what was found in an incomplete search on World Cat until 2003. To learn of others enter into WorldCat Electric Railway (s) - Canada or any province
